I called Acacias Plumbing to replace an old water heater and to install a water filter on the main water line. I spoke with Hector and he came out to give an estimate and check the access measurements for the new water heater. He came back a few days later to install the new water heater and haul away the old water heater. They also installed the water filter. Everything went well and a month later there have been no issues and we are happy with both things that they installed. I would recommend Hector and Acacias Plumbing because they were knowledgeable, fast and professional.

Cristian was awesome! He was prompt and the job was done excellently and efficiently. He fixed a leaking PVC valve on the water shut off to my house. Just plain great service all around! Would definitely recommend Acacias Plumbing again!

Hector and team came out to fix a few miscellaneous things from a home inspection. He was very responsive and they always call or text regarding their ETA.

All the work was done properly and tested and their invoice included pictures of the work and even some before/after photos where necessary.

Best of all, they're respectful of property and wear shoe coverings inside (and they remove them outside! It's pointless to wear them outside AND inside the house) and clean up after themselves.

Excellent service! I highly recommend Acacias Plumbing. Called them and they offered to be there the following morning (my issue was not an emergency). My schedule did not work for that so they came out the next day. The plumber who arrived was very knowledgeable and was happy to explain everything to me. He did not push any unnecessary fixes or upcharge me. He took his time to make sure my leak was fixed before packing up and leaving. I am so happy I have found a plumber that I trust!

I couldn't be happier with Acacias. Hector came out quickly after being called for a leak somewhere in my yard and did a large amount of probing to narrow down the leak. Turns out to have been a heck of a time, with pipes on top of pipes, all under a french drain making the repair very hard to get to the damaged portion of the pipes. I felt bad at all of the unexpected surprises and told Hector he should feel free to charge me more or whatever is fair for the additional unexpected complications - to which he refused and said he would stick to his word. I couldn't be happier at the service and Hector himself was a pleasure to deal with, very friendly, honest, and kept me up to date with his timing, arrival and findings - he was also very welcoming to allow me to hover around and ask questions. Highly recommend him.

Hector is the best! He has done several jobs for me from repairing pipes and gas lines to installing faucets and repairing water heaters. He's always very professional, does great work and is reasonably priced. I'm a realtor and have referred him to multiple people already and will continue to do so!

Trustworthy and reliable company that does a fantastic job without cutting corners. If you want it done right, then you should hire these guys since you'd rather have it done correctly! They're also very professional at what they do with a good attitude at all times so expect nothing less of what's written here. Good luck!
